

Jump start

How to get early
environmental reviews for
certain project types.

Are you a **declared county** looking to submit for **Hazard Mitigation Grant Program** funding?

Are you wanting to **submit applications** for the following **project types**:

- ⇒ **Acquisition/Demolition**
- ⇒ **Acquisition/Relocation**
- ⇒ **Elevation**
- ⇒ **Mitigation Reconstruction**

Would you like to get an **early start** on the **environmental and historic preservation (EHP)** review?

If you answered,
“**yes**,” to **all**,
then we would like to help.

Even before the **Notice of Funding Availability** is published, those **eligible applicants** seeking funding for the above listed project types can get a **preliminary EHP review**. This is a great way to get a **jump start** on the review process for those **projects you know you will be submitting**.

What we need to **get started**:

- ⇒ A [notice of voluntary interest](#)¹
- ⇒ **Neighborhood** or **geographic area** of the **project site(s)**
- ⇒ The **type** and **scope** of project being submitted
- ⇒ **Addresses** (if available)

Additional info helpful for Acquisition–Demolition/Elevation reviews:

- ⇒ **Documentation** of the year(s) of original construction, and any additions/modifications to existing structure.
- ⇒ **Plans** of proposed excavations or other ground disturbing activities.
- ⇒ **Photos** of structure (all sides).
- ⇒ **Copies** of any available plans for existing structure, as well as documentation of any changes made since original construction.
